Rule 31. Public Disclosure of Data

Pursuant to Government Code Section 6254.7, emission data reported by source owners or operators, or otherwise obtained by State or local agencies shall be available to the public as provided for in Regulation IX - Public Records. The data shall be so presented as to show the relationship between measured or estimated amounts of emissions and the amounts of such emissions allowable under the applicable emission limitations or other measures. (Rev. 1/29/74)
